**PERFORMANCE WORK STATEMENT
SWEARINGEN FAIRCHILD SA-226/227 PILOT QUALIFICATION TRAINING**

C.1 PROJECT/TITLE

Air Carrier Aircraft Pilot Training for Flight Standards Operations Inspectors and Aircraft Certification pilots employed by the Federal Aviation Administration (FAA).

C.2 BACKGROUND

Under Title 49 of the United States Code (49 U.S.C.), the FAA is authorized to acquire and expend funds for the acquisition, operation, and maintenance of aircraft as necessary in the exercise and performance of the powers and duties of the Administrator. The interests of the public, the safety of the workforce, and the credibility of the organization are best served by having qualified, proficient, and current inspectors conducting pilot evaluating, testing, and checking functions.

C.3 SCOPE

The contractor is to provide initial and recurrent ground school, and simulator to FAA inspectors/pilots in the applicable aircraft specified in schedule B. Student quotas for these courses will be assigned by the Flight Standards Service Training Division, AFS-500 or Aircraft Certification Service – Planning and Program Division AIR-500. The courses covered under this contract will meet the requirements for FAA formal flight training. FAA formal flight training consists of training courses with agency level course numbers that will be officially recorded in the employee's personnel records.

C.4 DEFINITIONS

The following definitions are used to define the terminology contained herein and are applicable as required by Title 14 of the Code of Federal Aviation Regulations (14 CFR):

1. Flight Time: Time from the moment the aircraft first moves under its own power for the purpose of flight until the moment the aircraft comes to rest at the next point of landing (block to block time).
2. Flight Simulation Training Device (FSTD): A full flight simulator (FFS) or a flight training device (FTD).
3. Full Flight Simulator (FFS): A replica of a specific type, make, model, or series aircraft. It includes the equipment and computer programs necessary to represent aircraft operations in ground and flight conditions, a visual system providing an out-of-the-flight deck view, a system that provides cues at least equivalent to those of a three-degree-of-freedom motion system, and has the full range of capabilities of the systems installed in the device as described in (14 CFR) Part 60 and the qualification performance standard (QPS) for a specific FFS qualification level.
4. Flight Training Device (FTD): A replica of aircraft instruments, equipment, panels, and controls in an open flight deck area or an enclosed aircraft flight deck replica. It includes the equipment and computer programs necessary to represent aircraft (or set of aircraft) operations in ground and flight conditions having the full range of capabilities of the systems installed in the device as described in (14 CFR) Part 60 and the qualification performance standard (QPS) for a specific FTD qualification level.
5. Crew Concept: When one inspector/pilot is receiving pilot-in-command (PIC) training in a simulator/training device, the other inspector/pilot shall receive second-in-command training or flight engineer training (if applicable). When one inspector/pilot is receiving PIC training in the left seat of an airplane flight deck the other inspector/pilot shall receive observer time (flight deck seating permitted). No additional charge shall be made for the presence of, or instruction provided to, such additional FAA inspector/pilot.

6. **Approved Training Program:** The contractor's FAA approved training course to include a (14 CFR) Part 121 or Part 135 training program, a (14 CFR) Part 141 training course outline, or a (14 CFR) Part 142 course. The contractor must provide documentation of approved training program by submitting one of the following items: a signed approval letter from the Principal Operations Inspector who approved the training program, the approved course syllabus, or the training specifications paragraph authorizing the training course.

C.5 APPLICABLE DOCUMENTS

FAA Order 4040.9D dated 12/4/1991 or as revised and available for download, in pdf format, from www.faa.gov

Flight training for inspectors is required by the above order, appendix 11 paragraphs 403 and 421.

C.6 GENERAL REQUIREMENTS

1. GENERAL

(a) **If the contractor's FAA approved training program contains less than the minimum required hours of Part I, Schedule B, of this solicitation, the contractor is required to supplement their approved program with additional ground school/simulator/flight training, as appropriate, to achieve the minimum required hours. Such additional training shall cover systems and procedures or be otherwise directly related to the successful completion of the type rating or proficiency check. If the contractor's approved training program contains more hours than the minimum stated in Part 1, Schedule B, then the contractor must submit the training hours in their approved training program. In either case, the contractor is requested, within the limits of their approved program, to delete company-specific training such as employee/customer relations, filling out company forms, evacuation training, company communications, or other items not directly related to the completion of the aircraft training and substitute training directly related to the successful completion of the type rating or proficiency check. Contractor's training program, and simulator must represent Swearingen Fairchild SA-227 model aircraft. Many FAA pilots/inspectors work with both the SA-226 and SA-227. Therefore, this solicitation requires supplemental training to the contractor's approved SA-227 training program to cover SA-226 versus SA-227 differences. This differences training may be addressed with ground school training. SA-226 simulator or flight training is not required. Use of an SA-227 DC simulator (minimum Level "C") to meet the needs of this solicitation is permissible providing SA-226/227 differences ground school is also provided.**

(b) The FAA will make every effort to enroll two inspectors/pilots per class. This will allow concurrent training at the captain and first officer positions during flight simulation training device periods. It should be noted that the minimum required full flight simulator, flight training device, and aircraft times are per inspector/pilot in the captains' position (left seat). For example, during recurrent training, a requirement of 6 hours simulator time per inspector/pilot would mean a total of 12 hours of simulator required for a two inspector/pilot class. When the FAA enrolls one inspector/pilot per class, it is expected that additional supplementary training may be required. Supplementary training must be approved in advance on a case by case basis by the Contracting Officer. All simulator time is considered "wet", consisting of the simulator and the required complement of instructors required by the contractors approved training program or required by the PWS. This is to include the hours used for any flight check.

(c) Training of FAA inspectors/pilots is not to be conducted between the hours of midnight and 6:00 a.m., including simulator/flight pre and post briefings. A maximum of four hours simulator/flight instruction per day or eight hours of ground school per day per inspector class is permitted. If ground and flight instruction are combined in a single day then a maximum of ten hours of training per day is permitted. To maintain continuity between

simulator/flight training sessions, the contractor is requested to minimize the switching of simulator/flight instructors between sessions.

(d) FAA personnel do not ordinarily operate the aircraft in which they are rated on a regular basis. Therefore, it is necessary that they receive the most complete review possible when attending recurrent training. If the contractor's approved program allows for a partial review of systems and procedures during successive recurrent training periods, it is required that the contractor supplement their approved program to achieve a complete review for FAA inspectors/pilots during each recurrent course.

(e) FAA personnel are usually performing other job functions prior to assignment to training and normally do not have time to devote to pre-course study. Additionally, due to circumstances beyond the control of the FAA or the inspector/pilot, an inspector/pilot may be assigned to training with short notice. If the contractor's approved program requires pre-course study prior to the trainee's arrival at the contractor's training facility, the contractor is required to supplement their approved course to allow for required pre-course study to be accomplished at the contractor's facility after the inspector's/pilot's arrival. Such ground instruction must either be classroom or computer based training.

(f) If the contractor's approved training program is specific to an all-cargo aircraft configuration, the contractor is required to supplement their approved program with ground instruction covering differences with a passenger carrying configuration of the aircraft. Similarly, when the contractor's program is specific to an all passenger configuration, the contractor is required to supplement their program to cover differences with all-cargo configurations.

(g) Pilots/inspectors enrolled in the initial course under this solicitation will meet the requirements of (14 CFR) Part 61.157 for initial type certification totally in a full flight simulator without restriction. The contractor's approved training program must allow unrestricted initial type rating training and checking in the simulator without aircraft flight time under this regulation.

(h) When this solicitation requires simulator training, at a minimum it must be conducted in a FAA approved level C full flight simulator (FFS). The contractor may utilize an approved level 6 or 7 flight training device (FTD) or a level A, B, C, or D FFS for required FTD time. Any level FTD time may be substituted for the minimum required ground school time. Flight Simulation Training Device pre/post briefing may be considered as ground school training. The contractor's approved training program must allow any substitutions the contractor makes.

(i) Inspectors/pilots attending training under this contract should present the contractor with a copy of FAA Form 4040-2, Pilot Flight Record and Application for Check Flight, signed by the inspector's supervisor. If the form is presented, the contractor's instructor, training center evaluator (TCE), or the FAA inspector administering a practical test or an instrument proficiency check shall complete the form and return it to the inspector.

2. QUALIFICATIONS

(a) INITIAL PILOT QUALIFICATION:

The contractor shall provide the aircraft and/or full flight simulator, and training necessary to enable the FAA inspector/pilot to pass the practical test to Airline Transport Pilot (ATP) standards (PTS) for a type rating on subject airplane, in accordance with applicable (14 CFR) Part 61 requirements, the contractor's FAA-approved training program, and the terms and conditions provided herein. Except when training for a single-pilot type rating, all flight simulation training and flight training shall conform to the principle of "crew concept."

Types of training shall include the following categories:

1. Initial pilot qualification ground school, and;
2. Initial pilot qualification using full flight simulator training including a 100% practical test for students who possess the necessary prerequisites required by the contractor's approved training program or;

(b) RECURRENT PILOT QUALIFICATION:

The contractor shall provide the ground school, full flight simulator and/or aircraft to enable the FAA inspector/pilot to pass the pilot-in-command (PIC) proficiency check to ATP standards on subject aircraft, in accordance with the applicable (14 CFR) Part 61.58(d) (1), requirements, the contractor's FAA-approved training program, and the terms and conditions provided herein. Flight Simulation Training Device and flight training shall conform to the principle of "Crew Concept."

Types of training shall include the following categories:

1. Recurrent pilot ground school and;
2. Recurrent pilot full flight simulator training when all training is to be conducted in a full flight simulator or;
3. Recurrent pilot flight training when all flight training is to be conducted in an aircraft.

(c) SUPPLEMENTARY TRAINING HOURS:

The Contracting Officer may authorize hours in addition to those specified under Initial and Recurrent Pilot Qualification training when required by the individual inspector/pilot to successfully complete type rating practical tests or proficiency checks. These hours shall be provided at the prices set forth in the item entitled "Supplementary Training Hours", Part I, Schedule B. In the event that any inspector/pilot passes the applicable test(s) in less time than the hours indicated in Schedule B, or partially completes training, the contractor shall be paid the rate stated, less a pro rata credit for the unused time at the supplementary rate.

(d) DIFFERENCES TRAINING:

When required, the contractor shall provide all training necessary to operate a variant aircraft of the same make and model as the referenced aircraft in accordance with the contractor's approved training program and the terms and conditions provided herein. Reference Section C. Scope.

Types of training may include any of the following categories:

1. Aircraft ground school
2. Flight training device training
3. Full flight simulator training
4. Flight training

(b) Flight simulation training device (FSTD) training, if applicable, shall begin within one working day after satisfactory completion of ground school. Flight training shall begin within one working day after completion of ground school or FSTD training, if applicable. Flight and FSTD training may be integrated with ground school training if it is a part of the contractor's program.

(c) Ground school instruction shall be presented by a qualified instructor in a classroom environment. If Computer-Based Instruction (CBI) is used to accomplish ground school training then the following requirements shall be met:

- (1) Inspectors/pilots shall receive a thorough briefing on the operation and use of the CBI equipment.
- (2) At least one instructor shall be present or readily accessible by electronic means to resolve any problems or questions that the inspector/pilot may have regarding the material presented in the CBI program.
- (3) All material presented by CBI shall be reviewed and reinforced by a qualified instructor in classroom discussion or one-on-one with the inspector/pilot.

(d) Upon scheduling an FAA inspector/pilot for training the contractor shall contact their FAA certificate holding office in order to arrange for the applicable check to be given by an FAA inspector qualified in the aircraft. The contractor shall make the applicable FSTD or aircraft and appropriate personnel available for the purpose of administering the check(s) required. If the contractor's FAA certificate holding office is unable to provide a qualified inspector for the required check(s), the contractor shall immediately notify the Contracting Officer's Technical Representative (COTR).

(e) In the event the FAA inspector/pilot fails to report for training as scheduled, or should become ill, injured or incapacitated during the training period the contractor shall promptly notify the COTR and the inspector/pilot's emergency contact if known.

(f) If the inspector/pilot has not passed the applicable pilot practical test or proficiency check after completion of the training outlined in Schedule B and in accordance with the specifications herein, the contractor shall withhold further training and promptly notify the COTR who will arrange the authorization of additional training. In the event such inspector/pilot does not complete the full course provided for in the schedule, the contractor shall invoice the FAA for only that pro rata portion of training actually completed per Paragraph F (2)(c) of this PWS and as certified on the Certificate of Training (Appendix A).

(g) The contractor shall notify the COTR of the inspector's/pilot's completion status within 5 working days after completion of the training program.

(h) Upon completion of all training, the contractor shall issue a Certificate of Training. The FAA inspector shall sign the certificate verifying the type of training provided, specific dates, and the duration of such training. The certificate shall conform to the format of Appendix "A" hereof. One copy of each such certificate shall be submitted to the COTR.

(i) The contractor shall furnish all training aids and facilities which meet the following minimum requirements:

- (1) Sufficient chalk dry erase or electronic boards for effective teaching shall be provided.
- (2) All training aids, including any audio-visuals, mockups, charts or aircraft components listed in the approved training program must be accurate and appropriate to the course for which they are used.

"Registered in the CCR database" means that the Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in Representations, Certifications and Other Statements of Offerors Section of the solicitation, the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)(1)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in AMS Procurement Guidance T3.10.1.A-8, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to:

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims. Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov/> or by calling 1-888-227-2423, or 269-961-5757.

(3) If the Contractor is an institution of higher education (as defined at 20 U.S.C. 1001(a)); a State or local government or the government of a Federally recognized Indian tribe; or a surety performing under a takeover agreement entered into with a Federal

agency pursuant to a performance bond, the Contractor may choose to verify only employees assigned to the contract, whether existing employees or new hires. The Contractor shall follow the applicable verification requirements at (b)(1) or (b)(2), respectively, except that any requirement for verification of new employees applies only

to new employees assigned to the contract.

(4) Option to verify employment eligibility of all employees. The Contractor may elect to verify all existing employees hired after November 6, 1986, rather than just those employees assigned to the contract. (i) Enrollment in the E-Verify program; or

(ii) Notification to E-Verify Operations of the Contractor's decision to exercise this option, using the contact information provided in the E-Verify program Memorandum of Understanding (MOU).

In such case, the Contractor will be referred to a suspension or debarment official by the terminating agency.

(ii) During the period between termination of the MOU and a decision by the suspension or debarment official whether to suspend or debar, the Contractor is excused from its obligations under paragraph (b) of this clause. If the Contractor is suspended or debarred as a result of the MOU termination, the contractor is not eligible to participate in E-Verify during the period of its suspension or debarment. If the suspension or debarment official determines not to suspend or debar the Contractor, then the Contractor must reenroll in E-Verify.

(c) Web site. Information on registration for and use of the E-Verify program can be obtained via the Internet at the Department of Homeland Security Web site: <http://www.dhs.gov/E-Verify>.

(d) Individuals previously verified. The Contractor is not required by this clause to perform additional employment verification using E-Verify for any employee--

K.7 AMS 3.2.2.7-7 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (JANUARY 2010)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that

(i) The Offeror and/or any of its Principals-

A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ☐ have not ☐ within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public

(Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws or receiving stolen property; and

(C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in subdivision a)(1)

(i)(B) of this provision.

(D) Have ☐, have not ☐, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples-

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(b) The Offeror has ☐ has not ☐ within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) 'Principals,' for the purposes of this certification, means officers; directors; owners; partners; and, persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions). THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER SECTION 1001, TITLE 18, UNITED STATES CODE.

(c) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(d) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this SIR. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(e) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information

of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(f) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this SIR for default.

AMS 3.2.5-2 INDEPENDENT PRICE DETERMINATION (OCTOBER 1996)
**AMS 3.2.5-7 DISCLOSURE REGARDING PAYMENTS TO INFLUENCE
CERTAIN FEDERAL TRANSACTIONS (OCTOBER 2010)**

PART IV - SECTION L - INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

L.1 INFORMATION AND CONSIDERATIONS AFFECTING OFFEROR PROPOSAL SUBMISSIONS

(a) The Procurement Contracting Officer (PCO) is the only point of contact for this acquisition. **Address any questions or concerns that you may have to the PCO.** Only written requests for clarification may be sent to the PCO at the address located on the front page of the SIR, ATTENTION: Harold Hannah or via email at harold.hannah@faa.gov. All questions and Government responses will be provided to each identified interested party.

(b) The Government intends to award a single contract to the Lowest Price Technically Acceptable (LPTA) Offeror.

(c) It is the intent of the Government to award a Single Firm Fixed-Priced Indefinite Delivery/Requirements Contract priced by CLIN for each Student per class for a one year base period and two priced option years.

(d) Specific attention is invited to **AMS paragraph 3.2.2.3.1.2.2: Communications with Offerors**. The FAA may communicate with one or more offerors at any time during the SIR process. Communications with one offeror does not necessitate communications with other offerors, since communications will be offeror specific. Information determined to have common application and not considered prejudicial to offerors will be communicated to all offerors.

(e) If an offeror believes that the requirements in these instructions contain an error, or are otherwise unsound, the offeror shall immediately notify the PCO in writing with supporting rationale. The offeror is reminded that the FAA reserves the right to award this effort based on the initial proposal without discussions.

L.2 INSTRUCTIONS FOR PREPARATION AND SUBMISSION OF PROPOSALS

1. It is recommended the Contractor provide an offeror letter with any assumptions made with regard to the requirement outlined in Section C, Performance Work Statement.

2. Screening Information Request:

This section shall contain a copy of the solicitation duly executed by an official authorized to bind the offeror along with References.

3. Technical Proposal:

This section shall contain requirements outlined in Section C, Performance Work Statement, of this document in accordance with **all applicable** Clauses and Provisions.

4. Pricing Proposal:

This section shall contain Contractor pricing.

Note: The Government anticipates that pricing of this action will be based on adequate price competition; therefore, offerors are not required to submit with their offer, in support of their price, man-hours, material costs and any other recurring or non-recurring costs. If however, competition does not materialize, the Contracting Officer may require upon request "other than certified cost and pricing" deemed necessary to adequately evaluate the reasonableness of the price. Examples of "other than certified cost and pricing" include: competitive published lists, published market prices, similar quote and/or copies of actual vendor quotations received.

5. **Past Performance References** should include at least two but not more than three contracts that represent systems similar in relevancy to those described in the Performance Work Statement contained in Section C. This information is required on the offeror and all subcontractors, teaming partners and/or joint venture partners proposed to perform ten (10) percent of the proposed effort based on the total proposed price, or perform aspects of the effort the offeror considers critical to overall successful performance. Offerors are cautioned that the FAA will use data provided by each offeror and data

obtained from other sources in the evaluation of past and present performance. Offerors are required to explain what aspects of the contracts are deemed relevant to the proposed effort and to what aspects of the proposed effort they relate. This may include a discussion of efforts accomplished by the offeror to resolve problems encountered on prior contracts as well as past efforts to identify and manage program risk. Categorize the relevant information into the specific technical sub-factors used to evaluate the proposal.

- Project name
- Contract Number and Agency issuing the contract
- Contract award date and period of performance
- Dollar value
- Contract Administrator or Liaison, Phone, address and email
- Rationale supporting assertion of contract relevance

Note: The offeror is responsible for verifying references before submission to ensure all information is correct.

Offerors are cautioned that the FAA may use the data provided by other sources in assessing risk associated with past performance and experience. Offerors may not be given an opportunity to rebut information considered negative and relevant to the evaluation if the information was obtained from other sources. While the FAA may consider data from other sources, the burden of providing thorough and complete past performance data rests with the offeror.

L.3 QUALIFICATION CRITERIA (JAN 1997)

CLA 1037

To be considered qualified, each offeror must possess an applicable training program approved under Federal Aviation Regulation (FAR) FAR Part 121 or FAR Part 135 or a training course approved under FAR Part 141 or FAR Part 142 for the aircraft identified herein and shall submit a technical proposal in accordance with the provision in Section L entitled, "Preparation of Technical Proposals."

L.4 PREPARATION OF TECHNICAL PROPOSALS (JAN 1997)

CLA 1045

- (a) Offerors must submit technical proposals (see section A block 9 for number of copies requested) in addition to price proposals. - (b) Offerors are advised to submit proposals, which are clear and comprehensive without additional explanation or information. Additional information may be requested from offerors whose proposals are considered to be reasonably susceptible to being made acceptable; however, the Government reserves the right to award a contract based on initial offers received, without discussions or negotiations.

L.6 NOTICE TO OFFERORS OF AVAILABILITY OF FUNDS (JAN 1997)

CLA 2710

The purpose of this provision is to put offerors on notice that funds are not presently available for this procurement. Offerors are hereby notified that this solicitation may be canceled. If funds do not become available, the Government will not be liable for any proposal preparation costs if this solicitation is canceled. Offerors will prepare proposals at their own risk. Therefore, the Government's obligation is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer and no contract may be awarded until funds are available.

L.7 REQUEST FOR MODIFICATION OF CONTRACT TERMS AND CONDITIONS (JAN 1997)

CLA 4533

Offeror's are hereby notified that the terms and conditions of this SIR shall be changed only through formal amendment(s) issued by the Contracting Officer. If an offeror takes issue with the terms and conditions contained herein, the offeror shall submit a Request for Modification of Terms and Conditions under separate attachment to their proposal. This request should be in offeror's format, on offeror's letterhead, signed by an officer of the company with authority to bind the offeror. The request must include documentation that fully highlights the offeror's proposed changes and must be specific as to the exact term(s) or condition (s) to which the exception(s) are being taken. These changes shall not be binding on the FAA until fully agreed to by both the FAA and the offeror and incorporated into the document prior to contract award.

(c) We may decline to consider electronic offers that do not include required information, or that reject any of the terms, conditions and provisions of the SIR.

(d) We reserve the right to make award solely on the electronic offer. However, if the CO requests, you must promptly submit the complete original (hard copy) signed proposal.

(e) Send your offer electronically to (FAX) 405-954-0042 or email at harold.hannah@faa.gov

(f) if you chose to send your offer electronically, we will not be responsible for any failure attributable to transmitting or receiving the offer.

PART IV - SECTION M - EVALUATION FACTORS FOR AWARD

M.1 BASIS OF CONTRACT AWARD

The solicitation requirements include all stated terms, conditions, representations, certifications, and all other information required by Section L of this solicitation. The Government intends to award without discussions. Therefore, each initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if determined necessary by the Contracting Officer.

M.2 EVALUATION OF PROPOSALS

- (a) Technical proposals will be evaluated according to the categories listed below which are **all equal in importance and rated as Acceptable or Not Acceptable:**
- (1) Current FAA-approved program, including the syllabi for the initial, recurrent, and standardization training programs;
 - (2) Proof of ownership or lease of aircraft and flight simulation training device;
 - (3) Availability of training aids and facilities;
 - (4) Hours proposed to determine that it meets the FAA minimum hours;
 - (5) Number of training days expected;
- (b) Evaluation of price proposals will consider the total price proposed per student, per course. Price evaluation will also include the total amount offered for supplementary training hours and option years, if requested as a part of the Schedule B.
- (c) Past Performance

Award will be made to the lowest-priced, technically acceptable, responsible offeror, with at least an "unknown confidence" rating with regard to past performance (see chart below).

M.3 Evaluation Criteria

All technical factors are equal in importance to cost/price. Price/cost will be evaluated as described in M.2. When the integrated assessment of all aspects of the evaluation is accomplished, factor ratings and evaluated cost/price will be considered in the order of priority listed in paragraph above. Any of these considerations can influence the Contracting Officer's decision.

(A) TECHNICAL

The overall evaluation criteria factors used to determine the "acceptability" or "unacceptability" of the technical proposals addressing the five (5) factors associated with pilot training as follows:

FACTOR 1: THE OFFEROR MUST PROVIDE EVIDENCE OF THEIR FAA APPROVED TRAINING PROGRAM AS DESCRIBED IN SECTION C.1 (d) 6 of this SIR.

CRITERIA: The Offeror must hold a 14 CFR Part 121 or Part 135 training program, a 14 CFR Part 141 training course outline, or Part 142 course.

ACCEPTABLE: The standard is met when the offeror provides the approved course syllabus, a signed approval letter from the Principal Operations Inspector who approved the training program, **OR** the training specifications paragraph authorizing the training course.

FACTOR 2: THE OFFEROR MUST PROVIDE PROOF OF OWNERSHIP OR LEASE OF THE AIRCRAFT AND/OR THE FLIGHT SIMULATION TRAINING DEVICE TO BE USED IN TRAINING FOR EACH COURSE PROPOSED.

CRITERIA: Proof of ownership or lease of any aircraft to be used and / or proof of ownership or lease of any flight simulation training device to be used.

ACCEPTABLE: The standard is met when the offeror provides ownership documentation or at least a 1 year lease agreement for the aircraft and/or flight simulation training device to be used for each course proposed.

FACTOR 3: THE OFFEROR MUST PROVIDE A DESCRIPTION OF THEIR TRAINING AIDS AND FACILITIES THAT MEET THE REQUIREMENTS OF THE SOLICITATION.

CRITERIA: Evidence of available resources to support requirements of Section C.6 (3)(i) 1 through 15 of the SIR for each course proposed.

Note: Holders of part 141 or 142 certificates need not submit this information as they have met this standard as part of their certification requirements.

ACCEPTABLE: The standard is met when the offeror is able to provide description of the availability of training aids and facilities and copies of the documentation required to meet the solicitation requirements.

FACTOR 4: PROVIDE PROPOSED GROUND AND FLIGHT TRAINING HOURS TO MEET REQUIREMENTS OF THE SOLICITATION IN SCHEDULE B, SPECIFICALLY ADDRESSING THE PERFORMANCE WORK STATEMENT SECTION C.1 (f) 1 (a) FOR EACH COURSE PROPOSED.

CRITERIA: Proposed Training Hours to meet the training requirements outlined in Schedule B

ACCETABLE: The Standard is met when the offer provides an FAA approved course syllabus or proof of an FAA approved training program with any needed revisions that supports Schedule B minimum hourly requirements for each course proposed.

FACTOR 5: THE OFFEROR MUST PROVIDE THE PROPOSED NUMBER OF TRAINING DAYS EXPECTED TO BE REQUIRED TO COMPLETE ALL TRAINING AND TESTING FOR EACH COURSE PROPOSED.

CRITERIA: Proposed number of training days to complete all training and testing.

ACCEPTABLE: The Standard is met when the offeror provides number of training days to complete all training and testing for each course proposed.

(B) PRICE/COST

Evaluation of price proposals will consider the total price proposed per student, per course. Price evaluation will also include the total amount offered for supplementary training hours and option years, if requested as a part of the Schedule B.

(C) PAST PERFORMANCE AND RISK ASSESSMENT

a) The past performance rating represents the evaluation of an offeror's present and past work record to assess the Government's confidence in the offeror's probability of successfully performing as proposed. The Government will evaluate the offeror's demonstrated record of contract compliance in supplying products and services that meet user's needs, including cost and schedule. The Past Performance Evaluation is accomplished by reviewing aspects of an offeror's relevant present and recent past performance, focusing on and targeting performance, which is relevant to the technical factors and sub-factors. In determining relevance, consideration will be given to previous and current contract performance that is similar in scope to the work described in the Statement of Work, which is an attachment to this solicitation. This information may include data on efforts performed by other division, critical subcontractors or teaming contractors, if such resources will be brought to bear or efforts performed for agencies of the federal state or local governments and commercial customers. As a result of an analysis of those risks, negative aspects and positive aspects of past performance identified, each offeror will receive an integrated Performance Confidence Assessment rating for the Past Performance factor. In addition to evaluating the extent to which the offeror's performance meets mission requirements, the assessment will consider things such as the offeror's history of forecasting and controlling costs, adhering to schedules (including the administrative aspects of performance), reasonableness and cooperative behavior and commitment to customer satisfaction, and generally, the contractor's business-like concern for the interest of the customer.

b) Where relevant performance record indicates performance problems, the Government will consider the number and severity of the problems and the appropriateness and effectiveness of any corrective actions taken (not just planned or promised). The Government may review more recent contract or performance evaluations to ensure corrective actions have been implemented and to evaluate their effectiveness.

c) All Offerors will receive one of the ratings described below for the Past Performance factor.

Rating	Description
HIGH CONFIDENCE	Based on the offeror's performance record, the government has high confidence the offeror will successfully perform the required effort.
SIGNIFICANT CONFIDENCE	Based on the offeror's performance record, the government has significant confidence the offeror will successfully perform the required effort.
SATISFACTORY CONFIDENCE	Based on the offeror's performance record, the government has confidence the offeror will successfully perform the required effort. Normal contractor emphasis should preclude any problems.
UNKNOWN CONFIDENCE	No performance record is identifiable.
LITTLE CONFIDENCE	Based on the offeror's performance record, substantial doubt exists that the offeror will successfully perform the required effort.
NO CONFIDENCE	Based on the offeror's performance record, extreme doubt exists that the offeror will successfully perform the required effort.

d) Offerors without a record of relevant past performance or for whom information on past performance is not available will not be evaluated favorably or unfavorably on past performance and, as a result will receive an "Unknown Confidence" rating for the Past Performance factor – the equivalent of a neutral rating.
